This solution will help Evergreen Members and Preferred Suppliers hire more easily and *more often*.

Member and Preferred Supplier businesses have access to a single solution to distribute job posts across the web and manage applicants all in one place.

Other features of the tool include:

- **Applicant tracking:** Leverage an applicant tracking system where all applicants are systematically managed.
- **Network Job Board:** See jobs posted across the network
- **Automatic email follow ups:** Courtesy emails are sent to candidates automatically
- **Multi-location setup:** Manage hiring across locations all in one spot

We are very excited about the potential of this new offering and encourage you to be on the lookout for outreach from Acquire4Hire in the coming weeks. You will receive a series of welcome emails designed to help get you started and make the most out of your new hiring tools.
